Proposal Description

SWCAA 400 Rule Revisions SSM Update; The Southwest Clean Air Agency is proposing to revise SWCAA 400 'General Regulations for Air Pollution Sources' for the purpose of making general revisions, updating incorporation by reference of federal regulations, revising existing startup shutdown provisions to be consistent with updated federal requirements, providing alternative standards for startup and shutdown, revise references to the appropriate RCW sections as a result of recodification, add a federally required section on Title 5 fee petitions, add procedures and a fee for permit extensions for start of construction, add a section and reduced fee for making minor permit modifications to accommodate name and address changes, add language

for supersession of previous permits, use of credible evidence, and information collection requests.. The proposed rule changes do not modify any underlying air quality standards, requirements or regulations in regard to emissions to the ambient air.
